

**3RD INTERNATIONAL
HUSBANDRY, HEALTH
AND CONSERVATION
CONFERENCE**

17-18 November 2022

FOREWORD

The 1st International Gibbon Husbandry Conference took place at Greensboro Science Centre, North Carolina in June 2012. In 2015 Perth Zoo hosted the 2nd International Gibbon Husbandry and Conservation Conference.

This year, for the third edition of this conference, there will be a strong focus on conservation, health management and all aspects of husbandry.

The main objective of the 3rd International Husbandry, Health, and Conservation Conference is to bring together leading experts on in-situ gibbon conservation, together with gibbon husbandry and veterinary specialists, with a focus to share learning and improve practices and to build alliances for more effective and better coordinated species conservation planning.
